SOPHOS

Security made simple.

Sophos XG Firewall

Unrivalled Security, Simplicity and Insight

Sophos XG Firewall brings a fresh new approach to the way you manage your firewall, respond to threats, and monitor what's happening on your network.

Highlights

‣ Next-generation network protection

‣ Synchronized Security and Security Heartbeat™

‣ Unified user, application and network control

‣ Instant visibility

‣ Powerful management and scalability

Sophos XG Firewall

Sophos XG Firewall provides comprehensive next-generation firewall protection that blocks unknown threats, automatically responds to incidents, and exposes hidden risks

Blocks unknown threats

Sophos XG Firewall provides all the latest advanced technology you need to protect your network from ransomware and advanced threats including top-rated IPS, Advanced Threat Protection, Cloud Sandboxing, Dual AV, Web and App Control, Email Protection and a full-featured Web Application Firewall. And it's easy to setup and manage.

Automatically responds to incidents

XG Firewall is the only network security solution that is able to fully identify the source of an infection on your network and automatically limit access to other network resources in response. This is made possible with our unique Sophos Security Heartbeat™ that shares telemetry and health status between Sophos endpoints and your firewall.

Exposes hidden risks

Sophos XG Firewall provides unprecedented visibility into top risk users, unknown apps, advanced threats, suspicious payloads and much more. You also get rich on-box reporting included at no extra charge and the option to add Sophos iView for centralized reporting across multiple firewalls.

Potent, powerful ... fast

We've engineered XG Firewall to deliver outstanding performance and security efficiency for the best return on your investment. Our appliances are built using Intel multi-core technology, solid-state drives, and accelerated in-memory content scanning. In addition, Sophos FastPath packet optimization technology ensures you'll always get maximum throughput.

Simply manage multiple firewalls

Sophos Firewall Manager provides a single console for the complete central management of multiple XG Firewalls. And if you also want to consolidate reporting across multiple XG, SG, and Cyberoam appliances then with Sophos iView, you can.

Sophos XG Series Appliances – at a glance

Our XG Series hardware appliances are purpose-built with the latest multi-core Intel technology, generous RAM provisioning, and solid-state storage. Whether you're protecting a small business or a large datacenter, you're getting industry leading performance.

Product Matrix

Model			Tech. Specs			Throughput			
	Revision #	Form Factor	Ports/Slots (Max Ports)	w-model 802.11 wireless	Swappable Components	Firewall [Mbps]	VPN [Mbps]	NGFW [Mbps]	AV-proxy [Mbps]
